MEMORANDUM FOR THE RECORD

SUBJECT: Visit with the Office of Current Intelligence, DDI, RMO,
25X1A9a 

DATE VISITED: 3 October 1968

PROGRAM BRIEF: The condition noted in the past year's report as to the state of the OCI records program maintains. The OCI/RMO is involved in budget, training, logistics, travel, and serves as the Deputy to the chief administrative officer. He admits to little time for the OCI records program. This is not to say, however, that he is indifferent, because quite the contrary is true. He just doesn't have the time to spend on a program other than giving it the broad brush. He noted that he attempts to review the OCI Records Control Schedules every June, and he is concerned about OCI vital records. He advised that the OCI Records Control Schedules are to be re-examined as a result of the recent records purge.
